Map Your Neighborhood

🔥 Learn How to Prepare your Home for Wildfires!

🔥 Learn about the recommended protective zones around your house.

🔥 What features of your home can help reduce the chance of it catching fire in a wildfire incident.

🔥 Emergency responder access, emergency evacuation routes, home insurance considerations.

🏠 Learn how to work together as a community to pool your existing resources during an emergency.

🏠 Neighborhood preparedness is about combining the skills, equipment and supplies from a group of neighbors to help everyone survive.

🏠 It is about identifying both those people with the necessary skills such as a doctor or nurse, and those people who need extra help due to age and physical abilities.

*Communities are only as resilient as the individuals who make them up and the extent to which those individuals work together*
